

# TVM Update: Pudendal/Ilioinguinal/Obturator Neuralgia = Immeasurable Injury

*Pharmaceutical injury attorney, Ben Martin, comments on need for monetary justice against manufacturers of mesh slings/devices that cause neurological injuries.*

SANTA BARBARA, CA, UNITED STATES, September 25, 2020 /EINPresswire.com/ -- Ben Martin, Esq. of Martin Baughman, national pharmaceutical injury attorney comments on the issues as it relates to monetary demands to defense manufacturers for the neurological injured clients that he represents from the vaginal mesh debacle.

“Our criteria for representation is generally the existence of specific neurological pain syndromes caused by transobturator slings, retropubic slings, and the devices used previously for pelvic organ prolapse. We intend to try these cases as the seriously injured and disabled women we represent with chronic pain syndromes knowingly caused by these manufacturers deserve compensation. I don’t mind saying it. I can’t believe these devices were put on the market in the first place, much less that they are still on it. The medical and scientific evidence is clear that transobturator slings cause pudendal and obturator neuralgia.

Ben Martin

There is no amount of money that will make our clients whole. They simply want to get better as they deal with miserable pain. We are with them, and try our best to understand what they are going through though we know that we can never truly understand it.”

“

I don’t mind saying it. I can’t believe these devices were put on the market in the first place, much less that they are still on it.”

*Ben Martin, Esq.*

The Vigna Law Group targets the below transobturator (TOT) slings and mini-slings that cause pudendal and obturator neuralgia:

Ethicon: TVT-O, Abbrevo

Boston Scientific: Obtryx, Solyx  
Coloplast: Aris, Altis

The Vigna Law Group targets the below retropubic slings that cause ilioinguinal neuralgia and Complex Regional Pain Syndrome:

Boston Scientific: Advantage Fit  
Ethicon: TVT, TVT Exact  
Coloplast: Supris

Dr. Vigna is a California and Washington DC lawyer who focuses on catastrophic neurological injuries caused by transvaginal mesh devices including pudendal neuralgia, obturator neuralgia, ilioinguinal neuralgia, and Complex Regional Pain Syndrome. He has clients with these diagnoses filed around the country with Martin Baughman, a Dallas Texas firm. Ben Martin and Laura Baughman are national pharmaceutical injury trial attorneys in Dallas, Texas.
